SUMMARY

Computer Science Engineering undergraduate with a robust background in Full-Stack Development, Data Science, and AI/ML. Proficient in architecting intelligent systems using LLMs, NLP, and workflow automation. Skilled in building scalable web applications and applying data-driven insights to optimize system performance. Well-versed in Agile methodologies and prompt engineering, with a passion for delivering agentic AI solutions that merge enterprise automation with advanced data analytics.

PROFESSIONAL SKILLS

Design Understanding, Problem Solving,
Team Collaboration, Adaptability,
Prompt Engineering, Data Validation,
AI Workflow Orchestration

TECHNICAL SKILLS

Java, Python, Django, Spring Boot,
REST APIs, Generative AI, LLMs,
React, Angular, MongoDB, MySQL,
Vector Databases, HTML, CSS, Git

PROJECTS

IND Tax Bot

Nov 2025 - Dec 2025

Built a serverless RAG application interpreting Indian Tax Laws with high retrieval accuracy. Engineered a fault-tolerant 'stealth' scraping pipeline to bypass WAF protections on financial sites, reducing data ingestion failure rates by 90% and ensuring real-time regulatory compliance.

Archie Tutor

Aug 2025 - Oct 2025

Architected a cross-platform study agent featuring a custom 'Draft & Context' system for real-time batch document analysis. Orchestrated a Python microservice for precision math solving alongside Gemini 2.0, delivering a production-grade, multi-modal reasoning engine.

PestiScan IoT

Dec 2025 - Present

Designed an end-to-end safety system bridging hardware sensors with software analytics. Integrated Arduino telemetry with Python ML models to detect pesticide residues on produce in real-time, creating a low-cost, scalable solution for organic food verification.

EDUCATION

B.E. in Computer Science and Engineering Dayananda Sagar Academy of Technology and Management	2023 - 2026 8.0 CGPA
Diploma (CSE) SJBGS Polytechnic Mandya	2020 - 2023 8.39 CGPA
10th Grade Arvind International School Tumkur	2020 71.36%

CERTIFICATES

Cloud Infrastructure 2025 AI Foundations Associate - Oracle	Networking Basics - Cisco
Cloud Infrastructure (OCI) Generative AI - Oracle	AI Concepts - Springboard
Workshops: Green Skills and AI	

ACHIEVEMENTS

Secured 2nd Place in 24-hour Techverse Hackathon at SJBIT.
Participated in a 24-hour Sentinel Hack Hackathon at KSIT.
Built an industry standard project in a 24 hour Algorave Hackathon at DSATM.
Attended workshops on Generative AI Tools from Skill Nation.
